Abstract

This package produce very nice punctuation mark for books.

1 Introduction

In the 20th century in former Yugoslavia many publisher produce a really nice and beautiful books. I have many of this books. In this books a see something like that: Moja majka je!... Pa kako to? So, I produce a package called `eqell` which mean `exclaim`, `quation`, `ellipsis`, which contain a few macro, who produce fine mark like `!... This package is activate by typing \usepackage{eqell} in preamble and request package xspace. Package provide that a space between each dot is same.`

<code>\ece</code> produce <code>!...</code>	<code>\elq</code> produce <code>...?</code>
<code>\que</code> produce <code>?...</code>	<code>\eco</code> produce <code>...</code> ,
<code>\eqe</code> produce <code>!?...?</code>	<code>\coe</code> produce <code>,...</code>
<code>\qee</code> produce <code>?!...</code>	<code>\beb</code> produce <code>[...]</code>
<code>\ele</code> produce <code>...!</code>	<code>\vev</code> produce <code>{...}</code>

2 The (famous) example

You may typing something like that:

What is this`\que` This is my very first package`\ece` But is not only one.
which produce:

What is this?... This is my very first package!`!...` But is not only one.
So, that's all folks `[...]` have a nice `TeXing!`...

Ako treba mi hoćemo `{...}` ali kako?
